Insect exterminator LED Light

DESCRIPTION:

The exterminator attracts flying insects (flies, moths, mosquitoes,...) by means of LED light and they are trapped on the adhesive plate by the strength of the glue.

The glue plate lasts between four and six weeks, depending on the situation, and is easily removed without the need for complicated tools; simply turn the unit off and replace it.

The specially designed LED light tube (ultraviolet rays) is totally harmless to people and pets, has a long life span and is energy efficient.

No chemicals, no fumes, no smell and pollution free. The exterminator series is ideal for indoor use, such as homes, factories, food shops, warehouses, hospitals, etc.

Rated voltage:

220V-240V~

Rated Frequency:

50-60Hz

Material:

ABS

Power:

7W

Tube:

T5 2 x 4,5W LED

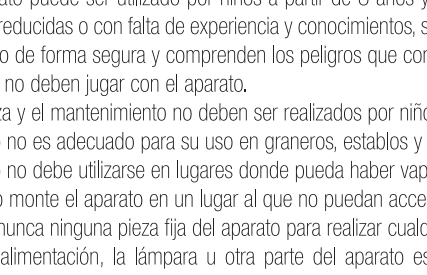

Coverage area:

50 m²

Tube working time:

10.000 h

Insect exterminator LED Light

PRECAUCIÓN:

- Este aparato puede ser utilizado por niños a partir de 8 años y por personas con capacidades físicas, sensoriales o mentales reducidas o con falta de experiencia y conocimientos, si han recibido supervisión o instrucciones sobre el uso del aparato de forma segura y comprenden los peligros que conlleva.
- Los niños no deben jugar con el aparato.
- La limpieza y el mantenimiento no deben ser realizados por niños sin supervisión.
- El aparato no es adecuado para su uso en graneros, establos y lugares similares.
- El aparato no debe utilizarse en lugares donde pueda haber vapores inflamables o polvo explosivo.
- Cuelgue o monte el aparato en un lugar al que no puedan acceder los niños. (> 2.0m)
- No retire nunca ninguna pieza fija del aparato para realizar cualquier ajuste interno evitando descargas eléctricas. Si el cable de alimentación, la lámpara u otra parte del aparato están dañados, el fabricante, su agente de servicio o personas similarmente cualificadas deben reemplazarlos para evitar un peligro.
- Desenchufe el aparato antes de limpiarlo y cambiar la placa adhesiva.
- El insecticida debe mantenerse fuera del alcance de los niños.
- ALTO VOLTAJE!
- Compruebe la tensión local antes de trabajar. No intente tocar partes internas de alta tensión durante el uso por peligro de descarga eléctrica. Nunca coloque objetos metálicos dentro cuando está en funcionamiento.
- Asegúrese de cortar la electricidad cuando limpie y repare la máquina.
- No tocar la rejilla de alta tensión con los dedos ni con metal.
- No lavar con agua, ni colocar bajo la lluvia.
- No utilizar en locales con elementos inflamables y/o explosivos o similares.
- Las reparaciones deben ser realizadas por el fabricante o electricistas cualificados.
- Asegúrese de que el voltaje y la frecuencia locales sean adecuados para la máquina.
- El tiempo de retardo entre la desconexión del aparato y el acceso a la red es de al menos 10 s.

INFORMACIÓN A LOS USUARIOS

Según la Directiva Europea 2002/95/CE, 2002/96/CE y 2002/100/CE, relativos a la reducción del uso de sustancias peligrosas en los aparatos eléctricos, además del símbolo de reciclaje.

El símbolo tachado del contenedor que se encuentra en el aparato indica que el producto, al final de su vida útil, deberá depositarse en un lugar separado de los demás residuos.

Por lo tanto, el usuario deberá entregar el aparato, cuando deje de utilizarlo, a los adecuados centros de recogida diferenciada de residuos electrónicos y electrodomésticos, o deberá devolverlo al vendedor en el momento de compra de un nuevo aparato de los equivalentes, uno o cambio de otro. La adecuada recogida diferenciada del aparato multiplicado para el sustrato reciclado. Finalmente el desecho ambientalmente compatible, contribuye a evitar posibles efectos negativos en el medioambiente y en la salud, y favorece el reciclaje de los materiales de los que se compone el aparato.

El desecho abusivo del producto por parte del usuario implica la aplicación de las sanciones previstas por la ley.

Insect exterminator LED Light

DESCRIPTION:

The exterminator attracts flying insects (flies, moths, mosquitoes,...) by means of LED light and they are trapped on the adhesive plate by the strength of the glue.

The glue plate lasts between four and six weeks, depending on the situation, and is easily removed without the need for complicated tools; simply turn the unit off and replace it.

The specially designed LED light tube (ultraviolet rays) is totally harmless to people and pets, has a long life span and is energy efficient.

No chemicals, no fumes, no smell and pollution free. The exterminator series is ideal for indoor use, such as homes, factories, food shops, warehouses, hospitals, etc.

Rated voltage:

220V-240V~

Rated Frequency:

50-60Hz

Material:

ABS

Power:

7W

Tube:

T5 2 x 4,5W LED

Coverage area:

50 m²

Tube working time:

10.000 h
